PROFESSIONAL SUMMARY

Full Stack Developer with 6+ years of experience building web applications for travel, e-commerce, and manufacturing domains. Comfortable working across the stack — from React.js frontends and Node.js/ASP.NET Core backends to REST APIs and SQL databases. Has worked on live production applications, including a multi-country travel booking platform, and has experience with Agile teams, production support, and client requirement discussions.

TECHNICAL SKILLS

Frontend:	React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
Backend:	Node.js, Express.js, ASP.NET Core ,MVC (C#), VB.NET, REST APIs, JWT Authentication
Databases:	MySQL, SQL Server, MongoDB, Stored Procedures
Tools:	GitHub, GitLab, Postman, Jira, VS Code, Visual Studio, AWS, Azure
Other:	PHP , WordPress, Agile Scrum, OpenAI API

WORK EXPERIENCE

Benzy Infotech Pvt Ltd

June 2021 – January 2026

Senior Software Developer

Tech Stack: React.js, Node.js, Express.js, ASP.NET Core (C#), Redux Toolkit, Tailwind CSS, MySQL, JWT, VB.NET, GitHub, Jira

Projects: Akbar Travels Customer Portal (akbartravels.com) and B2B Admin Portal (b2badmin.akbartravels.com)

- Developed React.js frontend components for the Akbar Travels booking portal, covering flight search, hotel listings, fare display, and booking confirmation flows.
- Built and maintained REST APIs in ASP.NET Core for flight search, fare calculation, booking management, and refund processing.
- Developed the B2B admin panel with role-based access control (RBAC) using ASP.NET Core MVC and JWT, allowing different admin levels to manage bookings and reports.
- Worked on the Node.js/Express.js backend for booking operations, user session handling, and connecting to third-party travel APIs.
- Investigated and fixed production issues including booking failures, incorrect fare calculations, and data inconsistencies.
- Integrated OpenAI API based chatbot functionality for automated customer support and booking assistance.
- Participated in Agile sprints, daily standups, and sprint planning sessions using Jira; worked alongside QA and business analysts on feature delivery.
- Reviewed code for junior developers and helped maintain consistent coding practices across the team.

Key Achievements:

- Contributed to and helped maintain a live production platform currently serving B2B and B2C travel customers at akbartravels.com.
- Identified and resolved recurring booking and refund calculation bugs that were impacting customer transactions.
- Improved MySQL query performance for booking and reporting APIs by rewriting stored procedures.

Magna Electro Castings Pvt Ltd

March 2019 – May 2021

Software Developer

Tech Stack: ASP.NET Core MVC C#, VB.Net, React.js, Node.js, SQL Server, Bootstrap, Tailwind CSS, JavaScript, PHP, WordPress, GitLab, AWS

Clients: Magna Electro Castings, Samrajyaa & Company, Magna Digitech, VR Galaxy, Menorah, Manoj Homes, Sixth Star Technologies, Dental Avenue

- Built internal web applications and client websites using ASP.NET Core MVC, React.js, and Node.js for clients in manufacturing, real estate, and healthcare.
- Developed modules for product management, employee login, and task tracking with responsive UI using Bootstrap and Tailwind CSS.
- Wrote and optimized SQL Server stored procedures and queries to improve data retrieval speed for internal reports and admin panels.
- Developed and customized Asp.Net C#, WordPress and PHP-based websites for multiple clients, including product catalogues and contact management pages.
- Managed code using GitLab, participated in code reviews, and coordinated deployments across multiple client projects.

Key Achievements:

- Delivered 9+ client web applications across different industries within agreed timelines.
- Improved report loading times on the MECL admin portal by optimizing SQL stored procedures.
- Created reusable React, PHP and WordPress templates that reduced setup time for new client sites.
